

## How do I use my Learn-to-Skate card?

Always wear your card to class. If you lose it, please let the staff know and get a replacement. You must have your card to check-in for public skating.

**Show your card, sign the notebook, get a practice sticker and a wrist band and you are ready to go!**

Check-in at front counter. Get a sticker for each time you practice. When your card has 8 stickers, turn it in for another card and a prize. Card is only valid until expiration date on the back.

Name of **FULL PRICE** class that you are enrolled in. Discounted classes may be listed at the bottom of the card.

## Welcome to Learn-to-Skate group classes at *ICE at The Parks!*

*Our goal is to make the sport of ice skating enjoyable and safe for everyone with high quality instruction for beginning and recreational skaters and to increase awareness of figure skating and hockey programs available to our skaters.*

### Group Lesson FAQ's.....

#### Where does my child check-in on the first day of class?

A check-in table is provided near the front counter. Pick-up your Learn-to-Skate card at the table. After you have your card, you may ask for skates. If you are taking Tot 1 or Pre-Alpha, your instructor will meet you in front of the posted class sign on Party Room 3.

#### How do I know what size skate to try?

If you have not skated before, figure skates (the brown skates) are best for you. Begin with a skate that is one size smaller than your shoe size. Loosen the laces down to the toe before attempting to put them on. After your foot is in, lace them firmly to the top. It is best not to wrap laces around your ankle. If you have done all of the above and your foot wobbles when standing, try a smaller size.

#### My child is enrolling in Tot 1&2. What should my child wear for class?

Long pants, a light jacket, socks that cover the ankles, gloves/mittens, a soft ski hat or helmet are recommended. Some children prefer soft knee pads.

#### How long are the group classes?

Each group class is 30 minutes long. We recommend arriving early so that you do not miss any of your class.

#### What if my children have to miss a class?

Students may attend the same class on another day and time. Please let the instructor know that you are making up a class when you arrive. Missed classes must be made up prior to the end of the session.

#### When can my skaters come to practice?

Your Learn-to-Skate session includes FREE public skating admission. Pick up a public skating schedule for days and times. You may also call the rink or check our website for current schedule information. The public skating schedule is usually the same each week but is also subject to change without notice.

#### How do you let people know about rink happenings?

We post information about shows, competitions, parties, LTS sessions and special offers on our bulletin board and hand out flyers in classes. Don't forget to check the bulletin board frequently and read your flyers!

#### How often should my child practice?

We recommend that skaters practice at least once a week in addition to their group class. Skaters who practice improve their skills and become more confident & comfortable on the ice than those who do not practice.

#### How much is skate rental?

If you are currently enrolled in Learn-to-Skate group classes, your discounted cost for skate rental is \$2. (Regularly \$3)  
On the day of your group lesson, your skates are FREE.

#### My child wants to bring a friend to public skate. How much will it cost?

If you are currently enrolled in Learn-to-Skate group classes, you may use one of your 3, free guest passes. This is printed on the back of your Learn-to-Skate card. Check your guest in when you check yourself in. Your guest will need to pay the discounted cost for skate rental of \$2. Without the free guest pass, admission is \$6 and skate rental is \$3. You must be with your guest.

#### What is the difference in a "Discounted Class" and a "Full Price Class?"

Full Price (\$112) classes include free admission for public skating, guest passes and rewards for practicing. Discounted classes do not include these extras. Discounted classes are offered to those students enrolling in a full price class. Stroking/Moves & Synchronized Skills classes are the only classes offered at a discount and only when taking a full price class. If a student wishes to take only Stroking/Moves or Synchronized Skills, they MUST pay full price. NO FURTHER DISCOUNTS APPLY TO THESE CLASSES.

#### What is ISI?

ISI stands for the Ice Skating Institute. "ISI's recreational ice skater test program *weSKATE*, is used worldwide, has accepted standards and has been developed for those who skate for recreation and enjoyment – for fun and pleasure." ICE at The Parks uses The Ice Skating Institute's skating curriculum and test standards.

Our skating shows and competitions are endorsed by the ISI.

#### Why should a skater become a member of The Ice Skating Institute?

ISI membership includes a quarterly magazine, membership card, limited accident insurance, and valid test registration. Membership also allows skaters to participate in ISI endorsed competitions and shows. Membership term is September 1<sup>st</sup> through August 31<sup>st</sup> each year. You may become a member of ISI by filling out a form and paying at the front counter or by enrolling on-line at the ISI website. [www.skateisi.com](http://www.skateisi.com)

ISI membership is required for valid test registration. Skaters with current membership, may register each test level that is passed and receive a patch. Bring the passing test paper and your ISI membership card to the front counter, pay for each passed test and receive a patch for each test.
